

# Home sound survey

Describe the sounds you can hear in different rooms at home or in the garden.

The sounds may be different at different times of the day. For example in the kitchen (kettle, microwave, someone preparing dinner.....)

What was vibrating to make each sound? Which room was the noisiest?

What sounds could you hear?	What was vibrating to make the sound?

**Suggestions:**

- People's vocal chords.
- The floor.
- The air.
- The table.
