

HOME LEARNING

Week Beginning

13th April 2020

Dear Parents and Carers – welcome to our second home-learning newsletter. We are so pleased to see and hear about the work you have been encouraging your children to do and in many cases doing with them. Your children's teachers are working hard to post up interesting and engaging learning activities and it is really important that you encourage the children to complete them. If you are having any trouble at all, either accessing the learning online, not having books and pens or even are struggling to get your children to do it, then do get in touch. You have the teachers' emails, Mrs Wills', Miss Hardinge's, Mrs Williams' and mine. We are all on hand to give you any help you need during school closure.
